## PREMIUM DOMESTIC REPLACEMENT GAUGES

Mastercool offers one of the industry's most extensive lines of high-quality replacement gauges designed for Automotive and HVAC refrigeration professionals. Engineered for accuracy, durability, and performance, our gauges are available in a wide variety of sizes, scales, and styles to fit virtually any manifold set application.

### **Extensive Selection of Replacement Gauges**

Mastercool manufactures a broad range of replacement gauges for HVAC, refrigeration, automotive A/C, and manifold service applications. Our inventory includes multiple pressure ranges, refrigerant scales, and face sizes to support both standard and specialized systems.

### **Built for HVAC and Refrigeration Professionals**

Mastercool replacement gauges are trusted by HVAC technicians, refrigeration specialists, and automotive A/C professionals worldwide.

Designed for demanding environments, our gauges combine:

- Rugged construction
- Reliable pressure readings
- Long-lasting durability
- Easy readability
- Professional-grade aesthetics

Whether replacing worn gauges or upgrading the appearance of your manifold set, Mastercool gauges provide the perfect balance of style and performance.

## FEATURES

### **Anti-Flutter Technology:**

Engineered to *reduce needle fluctuation, improve reading stability, increase measurement accuracy* and enhance technician confidence during diagnostics. This technology ensures clearer readings in dynamic pressure environments, helping professionals work faster and more efficiently.

### **Black Metal Gauge Housing:**

The durable black metal housing delivers a clean, modern appearance while maintaining excellent gauge visibility in the field.

### **High-Side / Low-Side Identification:**

Retains the traditional red and blue gauge face differentiation for quick and intuitive system recognition during operation.

## APPLICATIONS

Mastercool replacement gauges are ideal for:

- HVAC service and maintenance
- Refrigeration diagnostics
- Automotive A/C repair
- Commercial cooling systems
- Residential HVAC systems
- Manifold gauge set upgrades

	High pressure	Low pressure	Diameter	Units	Refrigerant Scales	
	93500	93350	2 1/2"	PSI/°F	R12, R22, R502	HVAC Automotive
